Introduction

Nuru massage has been around for many hundreds of years since it originated in Japan. Since then, this rather sensual body-to-body massage technique has made its way to Europe and is now here in America.

Nuru massage is a full body-to-body sensual massage that is performed between two nude people with a unique type of massage gel called nuru massage gel. Before the massage begins, the masseuse pours generous amounts of the special gel all over the body of the massage recipient. The masseuse slides his or her body along the other body, which massages muscles and relieves tension. Often, both parties switch the roles of masseuse and massage recipient to make the session really interesting and arousing! The feeling of the remarkable massage gel is sensational and makes both bodies feel extra sexy, most often this type of massage ends with an extremely exciting sexual intercourse. It is said that the word "nuru" originates from the Japanese language, which means "slippery."

Often, loving couples are able to enjoy this once mysterious massage bodywork, which enables them to relax and enjoy each greatly through foreplay and other types of intimate contact. Usually, after sliding across one another with a special nuru massage gel and increasing skin sensitivity, a nuru session leads to love-making and other exciting, inevitable activities between lovers, including what's possibly the best mutual oral sex.

Nuru Massage Parlors

But for those who are single and still wish to enjoy a sensual session of nuru, then the therapeutic body touch of another is available through several spas and nuru massage parlors worldwide.

This professional grade of nuru massage, it should be noted, **is purely sexual**.

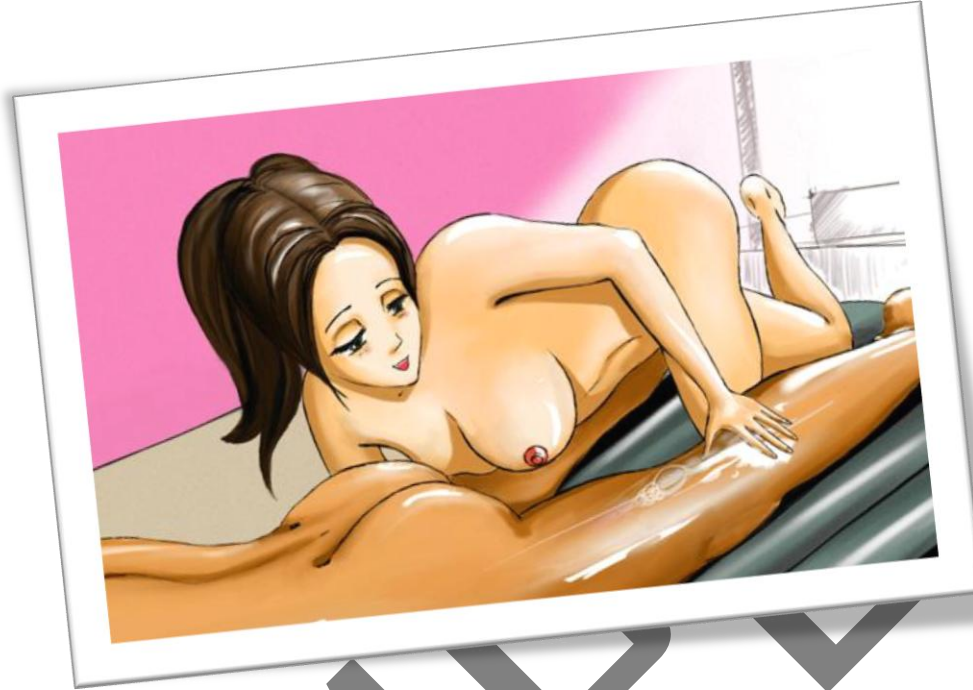

In cities such as Paris, Tokyo, London or even Los Angeles, you can find massage parlors or spas that expressly offer nuru massage. If certain areas prohibit this activity, then it may be easier to find an individual massage artist to come to your home for a private session.

Understand that professional nuru is the most sensual massage that could exist.

There are several websites that act as portals for professional massage artists worldwide by specialty. Sites such as massagetherapy.com and amtamassage.org offer referrals for those who seek professional, as well as service type, contact and rate information.

Let your fingers do the walking and go online to indulge in the newest trend in body-to-body sensual massage!

THE NUMA TECHNIQUE – The Best Sex Tip Ever!

The masseuse will now begin playing with the nuru massage gel by pouring it over his or her body. This is by far the sexiest step of the process – think of it as a sensual, slippery, private striptease just for your partner!
